--ABSTRACT--

In the English translation document, please add the paragraph at page 18 line 1, after the newly added ABSTRACT section heading, as follows:

The invention relates to an enclosure, particularly a housing for a mobile telephone, comprised of a first enclosure base body and of a second enclosure base body with a seal made of a sealing material. This seal is joined in a fixed manner to the first enclosure base body and sealingly rests against a second edge of the second enclosure base body. The seal is made of an elastically deformable sealing material. The invention also relates to a method for producing a housing part for a mobile telephone provided with an elastic seal according to the two-color injection molding method.
